Subject: Pilarski 1-12 cement records

Ted,

As a follow-up to last weeks telephone call I checked the Michigan Potash response to EPA's information request (hard copy and electronic disc). I could not find the Halliburton(?) daily log for cementing (plugging) for the Pilarski 1-12 well (mdeq # 00340) that you referenced during our call.

If you have a copy of the daily cement (plugging) log for this well, send to me and I will review. You can send this via email to me directly if you have the data in electronic format.

Thank you
Allan Batka
